NEWSLETTER

"Reading maketh a full man, conference a ready man, and  
an exact man."

--Francis Bacon.

-----  
A FEW REMARKS TO OUR PATRONS

There seem to be some misunderstandings about the use of the branch library. Your request for material or information from the library is official business and may be sent under frank. Also you may return library material weighing four pounds or less under frank.

The publications we have are for library loan, not for free distribution. Any one may borrow anything we have simply by requesting it.

You do not need to confine your requests to material listed in NEWSLETTERS. Ask for any book, pamphlet, or periodical you wish to see, and we shall secure it for you if possible. We shall also be glad to find information for you in our reference books or send lists of publications on any subject--or the material itself.

If you find that you cannot possibly get through with a publication in the time allotted you, write and ask us to extend the time. We shall be glad to do so if there is not a waiting list for the publication.

Request forms. We have printed library request forms which you may secure from us if you prefer using them to checking the NEWSLETTER and returning it. These forms are to be sent to us in duplicate. The use of these forms will save a great deal of time for the library staff. However, we feel that simply checking the NEWSLETTER will save time in your offices. Consequently, we are leaving it to you to decide which method of requesting material you will use.

ADDITIONAL PERIODICALS RECEIVED IN LIBRARY

If you wish to see any of these magazines regularly, please let us know.

Domestic Commerce. Monthly.	Personnel Journal. Monthly.
Journal of Dairy Science. Monthly.	Producer and Consumer. Monthly.
Louisiana Farm Bureau News. Monthly.	Public Personnel Journal. Quarterly.
Nutrition Abstracts and Reviews. Quarterly.	Recreation. Monthly.
Plant Breeding Abstracts. Quarterly.	What's New In Home Economics. Monthly.

The circulation lists for some of our magazines are entirely too long for the number of copies we have at this time. We shall have additional copies soon. In the meantime, please be patient about the length of time it is taking certain publications to reach you.

## Weeds

- Robbins, W. W. WEED CONTROL. McGraw-Hill, 1942.

"Gives a critical review of the various methods of weed control, including the results of recent investigations. There is an adequate treatment of weed production and dissemination of weeds, competition between crop plants and weeds, and association of weeds with soil and crops. The main emphasis is on practical weed control methods, their uses and limitation. The main chapter headings cover the following subjects: Weeds and Human Affairs; Reproduction and Spread of Weeds; Principles of Weed Control; Tillage Methods of Weed Control; Competition between Crop Plants and Weeds; Biological Control of Weeds; The Use of Chemicals in Weed Control; Non-selective Contact Sprays; Selective Herbicides; Translocated Sprays; Chemical Soil Sterilization; Temporary Soil Sterilants of a Volatile Nature; Sodium Chlorate as a Temporary Soil Sterilant; Boron Compounds, Arsenic Compounds, Thiocyanates, and other Soil Sterilants; A Comparison of Soil Sterilants; Combinations of Herbicides; Comparison and Application of Weed-Control Methods; Machinery for Applying Herbicides; Special Weed Problems in Grasslands and Turf, Cropped Areas; and Special Weeds." From Agricultural Engineering.

That book you've enjoyed--pass it along to a man in uniform. Leave it at the nearest collection center or public library for the 1943 Victory Book Campaign.
